TO WHOM IT MAY CONCERN

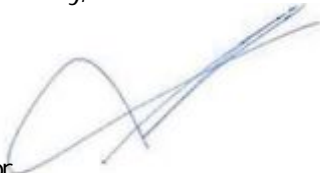

Regarding JLM Group - as reliable partner located in Lithuania. It's very well positioned logistic center connecting Western Europe and Eastern markets: Russia, Belarus, Kazakstan.

JLM Group is a logistic company specializing in transport and logistic services, provides chain solutions and distribution of high technology elements. The company's main advantages are: ensuring high quality customer support, optimization of client's costs and of course flexibility and reliability.

We are happy to confirm that we have business cooperation with them since 2015. JLM Group is our main logistic partner in Eastern Europe and CIS countries and I can confidently recommend them as a solid and reliable counterparty, ensuring high quality operational standards.

We would be glad to provide you with additional information regarding our cooperation with JLM Group.

Yours faithfully,

Director
Alecos Iacovides
